

COEURE

Cooperation for European Research in Economics

Kurzbeschreibung des Projektes:

The European Union is the world's largest eomic entity, yet its ability to design and implement effective eomic policies is not commensurate with its size. While the field of eomics has seen an impressive growth, the eomic research remains fragmented across the Member States. Developing an efficient research area is essential for growth and to the process of European integration. However, a variety of informal barriers inhibit the free flow of research funding, as a result, the efficient allocation of R&D funding. Research grants can provide a viable tool to circumvent limits to integration and to enhance the exchange of ideas. However, if not designed correctly, research funding can also aggravate the initial problem.

This proposal outlines how the European Eomic Association will go about creating the COEURE (COoperation for EUropean Research in Eomics) network, which will bring together key stakeholders in the European eomic research space and funders of research. COEURE will launch a global process that will lead to the formulation of an Agenda for Research Funding for Eomics in Europe (ARFEE). First the project involves taking stock of the current state of research in key sub-fields in eomics to map out the research frontier and the activities of European researchers. It identifies key open research questions and suggests ways in which research on these issues should evolve, notably to better address the policy challenges that Europe is now facing. Sed the project assesses the extent to which mechanisms for funding eomic research in Europe have supported research at the frontier in the past, and suggests ways in which they might evolve in the future to support it more effectively. Third the project brings together stakeholders to formulate the ARFEE to ensure that Europe has the appropriate funding mechanisms and the coordination among them.

Deutsche Partner in diesem Projekt:

Technische Universität Dortmund
<http://www.tu-dortmund.de/uni/Uni/index.html>

Weitere Partner:

- Universite Libre de Bruxelles, BE
- Universita Commerciale „Luigi Bocconi“, IT
- European Economic Association, BE
- European University Institute, IT
- Norges Handelshoyskole, NO
- Kozep-Europai Egyetem, HU
- Centre for Economic Policy Research LTD, UK

Coordinator:

Fondation Jean-Jacques Laffont, Toulouse
Sciences Economiques
FR
<http://www.fondation-laffont.fr/en/>

Funding Scheme:

Coordination (or networking) actions

Research Area:

Activity 1 - Growth, employment and competitiveness in a knowledge society
Area: Structural changes in the European knowledge economy and society

Topic:

Coordinating research agendas on economic policy, prioritisation and coordination in Europe

Duration:

36 months

Start date:

01.10.2013

EC Contribution:

1.467.505 €

Proposal Number:

320300
